ALL-COUNTY INFORMATION NOTICE I-58-80

• TO: ALL COUNTY WELFARE DIRECTORS

SUBJECT: COUNTY TRAINING ON AFDC STEPPARENT REGULATIONS

REFERENCE:

In response to numerous county requests, the Department has scheduled regional training workshops on the recently filed AFDC Stepparent Regulations. These workshops will begin on June 16th and will be held through June 26th. This training will focus on various stepparent situations and on the procedure for determining income to the aided family from the stepparent. We are proposing that counties attend these sessions according to the attached schedule.

All counties are encouraged to participate in this training. Because this will be a working session with limited space available, we are requesting that no more than two staff persons attend from each county. We recommend that counties send their AFDC Program Manager or Specialist, as well as a staff development representative if further county training is planned on this material. The length of these workshops will be approximately 4 hours. If you are unable to attend the session proposed for your county, or if you should have any other questions about this training, please contact your AFDC Management Consultant at (916) 445-4458.

Sincerely,

HYLE S. MCKINSEY
Deputy Director
